Our Process

The standard process for professional cleaning services

- **Preparation & Assessment** â?? Arrive on time, review client requirements/special instructions, gather supplies/equipment, and quickly inspect the space for priority areas or hazards.
- **Declutter & Trash Removal** â?? Remove obvious clutter (if permitted), empty all trash bins, replace liners, and dispose of waste.
- **High-Level Dusting** â?? Dust from top to bottom: ceiling fans, light fixtures, high shelves, vents, picture frames, and upper surfaces (prevents dust from falling on already-cleaned lower areas).
- **Surface Wiping & Sanitizing** â?? Damp-wipe and disinfect high-touch surfaces: countertops, tables, desks, doorknobs, switches, remotes, phones, appliances exteriors, mirrors, and glass.
- **Bathroom/Kitchen Deep Clean** â?? Scrub and sanitize toilets, sinks, showers/tubs, faucets, tiles, and fixtures; clean inside/outside of microwaves, stovetops (exterior), and sinks.
- **Floor Care** â?? Vacuum/sweep carpets and hard floors first (including under furniture where possible), then mop or deep-clean hard surfaces.
- **Final Touches & Inspection** â?? Restock supplies (toilet paper, soap, etc.), tidy up, perform a walkthrough inspection, ensure everything is spotless, and leave the space fresh.
